General guidelines □

1. Times New Roman font of size 12 must be followed consistently throughout the project report □
2. 1.5 space throughout the text on both side of the paper □
3. Margins: Left - 38 mm, Right – 25 mm, Top – 25mm, Bottom – 25mm □
4. Paper size: A4 □
5. Units and symbols should conform to the international system of units □

Abstract

This section will contain a statement of the problem, methods of investigation, major findings, and main conclusion.

Introduction

This section will contain general introduction, scope of the work, objective of the study and chapter outline.

Literature Review

This section will contain a critical review of the literature, pertinent theory, experiment and the importance of the chosen problem.

Design, Setup and Methodology

The reporting on design, setup and methodology shall be presented in one or more chapters with appropriate chapter titles. Due importance shall be given to experimental setups, procedures adopted, techniques developed, methodologies developed and adopted.

Results and Discussions

- Brief description of the methodology, primarily the experimental design
- The text should describe the results
- The figure and table legends contain
  - Short title
  - Description of the symbols, if applicable
  - Description of the statistics used, if applicable
- The figure or table and its legend should appear on the same page
- Avoid repeating a description of the results – keep the description of the results in the body of the results section and not in the figure or table legend
- Emphasize the most important contributions of the project. The discussion must not merely recapitulate results or review the literature
- It is essential to discuss the research in relation to the literature and to assess the significance of the findings

Conclusions and Scope for Future Work

This section contains the major findings, main conclusions, and future scope.

References

There must be only one reference list for the entire project report in order of citation in the body of the project report. Preferably, use the IEEE format for references.

Appendices

This section may contain tables and figures of data that are necessary to show, but that are not part of the project report.
